

WHAT IS CLAIMED IS:

1. A collapsible barbecue grill assembly comprising:

a top rack (20) composed of two side frames (22a) (22b) and two panels (24a) (24b) pivotally and connecting between the two side frames (22a) (22b), wherein each side frame is a U-shaped frame and has a top and two arms and one of the panels has a curved collar (242) to surround more than half of a circumference of a corresponding one of the arms of the side frame to which the panel is attached to pivotally mount the panel (24) on the arm;

a leg assembly (10) attached to the top rack (20) to support the top rack (20) and having four legs to respectively and detachably engage with the two arms of ^{the} two ~~the~~ side frames (22a) (22b); and

a foldable charcoal container (30) mounted on the top rack (20) composed of two symmetrical bodies (32) pivotally connected with each other to construct an enclosing wall with a bottom opening and a top opening, and a bottom plate (32^b) attached to the enclosing wall to cover the bottom opening.

2. The collapsible barbecue grill assembly as claimed in claim 1, wherein each symmetrical body (32) of the charcoal container (30) has a long side board (322) with two long sides and two short sides, and two wings (324) are respectively and pivotally attached to the two short sides of the long side board (322); and

each wing (324) on one of the symmetrical bodies (32) has a distal end pivotally connected to an adjacent distal end of a corresponding one of
